Women With A Purpose is a grassroots charity dedicated to giving back to local communities by aiding and supporting individuals, children and families in great need or distress, one dinner at a time.

By getting together once a month for a "Girls' Night Out" we enjoy dinner or drinks at a local restaurant, new and old friendships, and for some, light networking.

At the beginning of the evening each attending guest contributes \$10 in a glass bowl and nominates an individual, child or family going through devastating trouble or loss. Towards the end of the evening we pick from the bowl of nominations and whomever is chosen is gifted the money collected. The more women that attend each month, the more money we can raise to support people in our communities who have been hit by a catastrophic time in their lives.

Women With A Purpose was Founded in December 2009. Since its inception the organization has a membership of over 700 local women and has raised thousands of dollars! We look for opportunities to increase awareness and membership within local communities and hope you will help with our mission!

The individuals, children or families nominated must be in great need or distress from medical circumstances, sickness, displacement from their home, or similar situations, and should be local to your area. Women With A Purpose reviews each nomination to ensure proper guidelines are met and are consistent with the rules of the charity.
